JOURNAL OF THE GEOLOGICAL SOCIETY

Volume 142 1985

Chief Editor: Dr M. J. Le Bas.

Editors: Professor G. C. Brown, Dr M. Brown, Dr H. Colley, Dr J. M. Cubitt, Dr L. E. Frostick, Dr P. D. Lane, Dr S. Moorbath, Dr A. H. F. Robertson, Dr D. Robinson, Dr R. C. Searle, Dr P. W. G. Tanner, Professor G. K. Westbrook, Dr G. D. Williams, Dr P. J. Williams.

Advisory Editors: Dr B. Chadwick, Dr L. R. M. Cocks, Dr K. Coe, Professor M. P. Coward, Professor J. B. Dawson, Dr W. J. French, Professor A. Hallam, Dr R. T. Haworth, Dr J. A. E. Hubbard, Mr R. McQuillin, Mr A. Notholt, Professor B. F. Windley.

Quod si cui mortalium cordi et curae sit, non tantum inventis haerere, atque iis uti, sed ad ulteriora penetrare; atque non disputando adversarium, sed opere naturam vincere; denique non belle et probabiliter opinari, sed certo et ostensive scire; tales tanquam veri scientiarum filii, nobis se adjungant.

But if any human being earnestly desire to push on to new discoveries instead of just retaining and using the old; to win victories over Nature as a worker rather than over hostile critics as a disputant; to attain, in fact, to clear and demonstrative knowledge instead of attractive and probable theory; we invite him as a true son of Science to join our ranks.

BACON (*Novum Organum, Prefatio.* 1620)

Proceedings

ANNUAL GENERAL MEETING
30 May 1984: Election of Officers and Council and presentation of Medals, Funds, Awards and Prize 211
ORDINARY GENERAL MEETINGS
8 February 1984: Research papers—sea-level changes 208
25 April 1984: William Smith Meeting—Theoretical framework for the Pleistocene Ice Ages 210
3–8 September 1984: Evolution of the Caledonide–Appalachian orogen 719
26–28 September 1984: Sedimentation in the African rift system 719
24–26 October 1984: Nature of the Lower Continental Crust 720
26 November 1984: Research papers 722
BRITISH GEOMORPHOLOGICAL RESEARCH GROUP
5–6 January 1984: Meeting 207

12–13 April 1984: (with Remote Sensing Society and Institution of British Geographers) Quantitative remote sensing in the earth sciences 209
11–13 May 1984: Spring Field Meeting 211
13 September 1984: (with Section E of British Association) Environmental changes in low latitudes 719
28–30 September 1984: Annual General Meeting—Geomorphology and soils 719
15 November 1984: (with Institution of Mining and Metallurgy) Placer deposits 722

British Sedimentological Research Group
5–7 May 1984: Storm sedimentation 210
17–18 September 1984: The Devonian Orcadian Basin 719
19–21 October 1984: Field workshop, Lake District 720
17–19 December 1984: Annual General Meeting 723

Childrens' Christmas Lecture
20 December 1984: The physics of sedimentation 723

Earth Sciences Education Methods Group
22 May 1984: (with Geological Information Group) Computer education in geology 211

Engineering Group
10 January 1984: (with Institution of Highway Engineers) The M25 motorway 207
7 February 1984: (with Marine Studies Group) Routing of pipelines and cables on the sea bed 207
14 February 1984: Earthquake and blasting vibrations in surface mining 208
8 May 1984: (with Geological Information Group) Applications of microcomputers in engineering geology 210
17–20 September 1984: Site investigation practice based on BS 5930 719
13 November 1984: The Kotmale Dam 722
11 December 1984: Engineering geological aspects of quarry planning 722

Geological Curators Group
15 February 1984: 10th Anniversary Meeting 208
8–9 June 1984: The geological heritage in the Welsh Borderland 220
6 September 1984: The 'computerized' museum, Cambridge 719
7 September 1984: Pleistocene vertebrates 719
2 November 1984: A new look at the dinosaurs 722
7 December 1984: Annual General Meeting. The storage of geological material 722

Geological Information Group
25 January 1984: Practical experience in the design and use of earth science databases 207
9 February 1984: (with the Petroleum Group) Quantitative petroleum prediction 208
2 May 1984: Sources of geological information for the Far East 210
8 May 1984: (with Engineering Group) Applications of microcomputers in engineering geology 210
22 May 1984: (with Earth Sciences Education Methods Group) Computer education in geology 211

11 October 1984: Geological computer fair 720
12 December 1984: Current activities in bibliographic services 722
GEOLOGICAL SOCIETY AWARDS FOR 1985 211
HYDROGEOLOGICAL GROUP
24 January 1984: Effects of agricultural practices on groundwater quality 207
10 April 1984: Instrumentation in hydrogeology—what has new technology to offer? 209
12 June 1984: Tracers 220
9 October 1984: Exotic uses of aquifers 720
JOINT ASSOCIATION FOR GEOPHYSICS
9–11 April 1984: 8th United Kingdom Geophysical Assembly (with Royal Astronomical Society) 209
8 May 1984: Geological applications of magnetostratigraphy and magnetic fabrics 210
MARINE STUDIES GROUP
7 February 1984: (with Engineering Group) Routing of pipelines and cables on the sea bed 207
17 May 1984: River sediment supply, delta formation and adjacent shelf processes 211
6–7 November 1984: North Atlantic Palaeoceanography 722
METAMORPHIC STUDIES GROUP
7 March 1984: Annual General Meeting. Research in progress 208
12–14 April 1984: Diagenesis and low temperature metamorphism 209
MINERAL DEPOSITS STUDY GROUP
10–13 May 1984: (with Volcanic Studies Group) Mineralization and volcanic processes 211
17–18 May 1984: (with Institution of Mining and Metallurgy) Prospecting in areas of glaciated terrain 211
17–18 December 1984: Annual General Meeting 723
PETROLEUM GROUP
11 January 1984: (with Petroleum Exploration Society) North Sea chalk as an oil and gas reservoir 207
9 February 1984: (with Geological Information Group) Quantitative petroleum prediction 208
8 March 1984: Habitat and production of condensate 209
22 March 1984: The petroleum habitat of the Sunda Arc of Indonesia 209
16 May 1984: On-shore UK exploration 211
19 November 1984: Annual General Meeting 722
TECTONICS STUDIES GROUP
1 February 1984: Research in progress 207
3–4 March 1984: Moine meeting 208
13–19 May 1984: Thrusting and deformation 211
27–28 October 1984: Variscan structure of SW England 722
7 November 1984: Subduction-related accretion processes 722
5 December 1984: Neotectonics 722
17–21 December 1984: Annual General Meeting 723
VOLCANIC STUDIES GROUP
15 February 1984: Volcanological research in progress 208

10–13 May 1984: (with Mineral Deposits Studies Group) Mineralization and volcanic processes 211
13–16 September 1984: Alkaline Igneous Rocks 719
17–30 September 1984: Field Excursion—Massif Central 719
14 November 1984: Research in progress 722

Conference reports

ALLEN, P. A. & POUND, C. J. Storm sedimentation 411
BRODIE, K. Metamorphic studies: research in progress 1239
